NS060

Light Sensor

V1.1.1

Specifications

Change History

Document Version	Release Date	Description
V1.1.1	2021-02-06	Added the certification information.
V1.1.0	2020-05-22	Updated the cable length description.

Introduction

The NS060 is a light sensor designed and produced by NovaStar. It can be connected to NovaStar sending cards, asynchronous cards or multifunction cards for ambient brightness monitoring, allowing for automatic brightness adjustment of LED display.

The sensor body of NS060 is made of aluminum alloy. The sensor surface adopts micro-arc oxidation process, and therefore it is highly UV-resistant and will not be discolored. The joint between the sensor body and male connector has a very-deep groove and is extremely waterproof.

Features

- Ambient brightness monitoring, allowing for automatic brightness adjustment of LED display
- Capable of connecting to sending cards (MSD300, MSD600, MCTRL300, etc.), asynchronous cards or multifunction cards
- A 5-meter cable provided (NS060-5A model), extendable to 10 meters (NS060-10A model)
- Mildew, moisture and salt-mist resistant design, ideal for outdoor applications
- No external power supply required

Applications

The NS060 light sensor can work with devices that have light sensor connectors, such as sending cards, asynchronous cards and multifunction cards. It must be placed in the same environment with the LED display.

The connection between the light sensor and multifunction card is shown in Figure 1.

Dimensions

Unit: mm

Assembly

Preparation

Assembly

Complete

Tips: It is recommended that you apply outdoor waterproof adhesive to the joint between the sensor body and substrate after assembly, and check the joint regularly.

Specifications

Item	Specifications
Rated voltage	5 V DC
Operating temperature	−20°C to +70°C
Operating humidity	0% RH to 99% RH, non-condensing
Brightness measurement range	0 lux to 65535 lux
Cable length	5 m (NS060-5A model) 10 m (NS060-10A model)
Certifications	EMC, RoHS, PFOS

Trademark

is a trademark of Xi'an NovaStar Tech Co., Ltd.

Statement

Thank you for choosing NovaStar's product. This document is intended to help you understand and use the product. For accuracy and reliability, NovaStar may make improvements and/or changes to this document at any time and without notice. If you experience any problems in use or have any suggestions, please contact us via the contact information given in this document. We will do our best to solve any issues, as well as evaluate and implement any suggestions.
